Who Not What

Who are we? We are an award winning group of young **LGBTQ** people from across Hertfordshire who represent the voice of the young lesbian, gay, bisexual, transgender and questioning community. We are a strategic group who work with service providers and local groups to see how support services can be improved for the young **LGBTQ** community. We are also trying to raise awareness through different media channels about issues that **LGBTQ** young people face including mental health and hate crime awareness. We meet once a month and are currently recruiting new members.
